WORK EXPERIENCE

EY (Ernst & Young)

Mar 2021 - April 2023

Associate Consultant (Java Full Stack Developer)

Hyderabad , Telangana

- Involved in designing and developing Single Page front end Application of 8+ pages with Angular along with Angular Materials with the goal of providing better UI/UX to the end user.
- Leveraged my expertise in Java to Develop Backend Server on JavaEE platform with Core Java with good command of Java Data Structures and Algorithms , Multithreading , Object Oriented Programming (OOPs) under Spring Boot framework with REST web service reducing overall data workflow process in a litigation case by almost 50% .

Harman International

April 2023 - present

Engineer I, Software (Java Backend Developer)

Bangalore , Karnataka

- Design, code, and collaborate with the team to define an SOA-based architecture for a scalable and resilient cloud- based automotive development platform using Microservices, Spring Boot and best practices for fault tolerance with familiarity of Git, Postman ,Swagger .
- Deliver server backend solution for a cloud-based development platform. Ensure optimal deployment and integration in Docker and Kubernetes environments, prioritizing scalability and resilience.
- Set up and maintain robust CI/CD processes leveraging Jenkins, Helm charts, and GitHub.

SKILLS

Java , Servlets , JSP , JDBC , Spring Boot ,Spring MVC , Spring JDBC , Junit , Mockito ,Maven , SQL , Microsoft Sql Server , Postgres , Spring Data JPA (Hibernate) , Microservice Architecture ,Distributed system, MongoDB, Redis , Docker, kubernetes , Jenkins , Graylog , python

Previous Experience : Angular,Angular Materials,HTML,CSS,Bootstrap,Javascript,Typescript,JQuery

PROJECTS

DDIY (Discovery Do It Yourself) Web application that seamlessly integrates E-Discovery data processing with a investigation and litigation platform, providing legal teams with a professional, all-in-one solution for data handling and evidence collection. (Angular/Java SpringBoot/SpringMVC/SQLServer)

ReadyDevelop Harman's next generation Cloud Based Virtual Development Platform for Automotive which streamlines the software development process by enabling efficient code writing, debugging , deployment, and automated testing of cutting-edge emulator In-vehicle infotainment and cluster solutions.(Java SpringBoot/Postgres/Jenkins/Kubernetes,Microservices)

EDUCATION

B Tech Information Technology

June 2017 - Mar 2021

Kongu Engineering College , Perundurai , TamilNadu

CGPA - 7.84

CERTIFICATIONS

Microsoft Certified : AZ-900 - Azure Cloud Fundamentals , Google IT Automation Professional certificate.
